Factory cheese in Cattaraugus County is set
for fourteen cents.

The Islands for August has been received by

Hurd & Co., at the Postoffice.

Attention is directed to the arrival of Byers

Sherman & Co. in our 2nd annual column.

The person who borrowed "Aaron's Works" from the HERALD library is requested to return

the same.

—The Philadelphia and Erie Railroad company is going to build a new depot at Warren, which is much needed. The location of it is not yet fixed.

—Lost a bunch of keys, between the Bank in Office and Post Office, marked "C. C. C." The finder will be rewarded by leaving the same at this office.

The Harmontown well No. 100, Porter farm, was producing yesterday at the rate of 100 barrels per day. Ten new wells are in progress of drilling by the same company.

—Thousands of fish are dying from the excess of heat, in creeks in the western part of the State, and some points on the Ohio claim the people can cross dry-shod!

—We learn from Stonington that the congressional conference had made no nomination to yesterday's afternoon. The balloting was very few were confined to Messrs. Putnam and Gifford, each receiving six votes. It is thought that if a nomination is not adopted to day the committee will adjourn to this day.

—The Chautauqua (Jamesstown) Daily Advertiser is readers on the smart business being done by one of its village institutions as follows:

"The Franklin Cemetery Association is a very flourishing. More lots have been sold during the year than have been sold during my previous year since its organization and its expenses have been less than for any former year."

REMOVAL OF LOSCO'S CLOTHING STORE. Losco has moved and it is now to be noted that all his old customers may follow him to Titusville. There has stood in the dim antiquity of the town, for the four or five years past. He has now removed from his old number, 7 Spring street, to the "four corners" as we may call it, to the old First National Bank block, corner of Spring and Franklin, which he has purchased. A more central and conspicuous location there could not be, nor one more convenient for the city trade, and that of the surrounding country. The new store has been fitted up in a most commodious and elegant manner.

In fact the arrangements for the display of stock of various kinds are admirably the best we have seen in this part of the State, the counters being fitted up with interior show cases, and the wall shelving furnished with sliding doors and drawers. But we have no time for details, nor is it necessary, for the whole town will look in for themselves before the season is over. But there is one thing worth noticing, and that is the full length mirror which is fixed in the best light so that every one, in turn, may, who is in agreement, or a friend, care for himself, how else. This is a fair test, and it seems that I am willing every purchaser of his goods shall apply it. Mr. Losco opens his new store with a most varied and ample stock of goods, and of every description, especially adapted to the season, and embracing the latest style. There is no need of recommending so popular an establishment as Losco to the people of Titusville. We might say all of them, for Losco has hundreds of customers all over this region from Oil City to Titusville who are "walking advertisements" for him, from their ties to their home. They know that they can get just what they want at Losco's, and that his prices are not exorbitant. They like "his style," "the style of a honest merchant, and a very clever gentleman."

GRANT AND COFFEE JUNIOR CLUB. Pursuant to adjournment, the Grant and Coffey Junior Club met at City Hall, Wednesday evening last. The meeting was only tolerably well attended, but great interest was manifested, and business of importance, of a various nature, transacted. Among other things, we do, by bringing the large and commanding room in Stewart's block, on Franklin street, for the use of the Club, and it will at once be put into proper repair for the Club's use. It was decided to form at once a marshall, and to that end a Committee was appointed which will probably have all the arrangements made by the next meeting. Other business of an important nature was transacted, but want of space forbids further detailing. Let there be a full attendance of the members.

We will call the attention of our readers to the Advertisement of J. Davis & Sons, on second page, who have recently opened a branch store at Pomeroy, and are prepared to furnish the citizens of that vicinity with Clothing, Dry Goods, Boots and Shoes, Furnishing Goods, and in fact everything needed in the line of Yankee notions.

Moors, Davis & Brothers are well known throughout the oil region. Their stock does not consist of old goods, but have been recently selected and will be sold at the lowest prices.

The Fourteenth Amendment to the Constitution.

We gave yesterday the history of the Fourteenth Amendment to the Constitution, its passage through Congress, the opposition of Johnson, its rejection by the rebel government, set up by Johnson, its subsequent final adoption by three-fourths of all the States including the Southern States with two or three exceptions.

To-day we give the text of the great enactment, so important in its political bearings, and which will remain a lasting monument of the justice and wisdom of the Republican party who are the authors of it, and by whom it has been carried into effect, and framed into the body of the Constitution.

It constitutes the best security for the preservation of our Government and a sure way of escape from the deplorable social and political evils, which brought us lately to the verge of dis-

impairment, equality of representation, disabilities coupled with the promise of immunity, the inviolability of the National credit and pledges and the sureness of its obligations, and prohibition of the assumption of debts created to destroy our Government. These are the ends sought by this second Magna Charta.

This is the Amendment.

ARTICLE XIV.—Section 1. All persons born or naturalized in the United States and subject to the jurisdiction thereof, are citizens of the United States, and of the State where they reside. No State shall deprive any person of life, liberty, or property, without due process of law; nor deny to any person within its jurisdiction the equal protection of the laws.

Sec. 2. Representatives shall be apportioned among the several States according to the number of persons in each State, including Indians not taxed. But when the right to vote shall be denied to any citizen of the United States, or shall deprive any person of life, liberty, or property, without due process of law, nor deny to any person within its jurisdiction the equal protection of the laws.

We give below the stocks on hand in the oil regions, in iron and wooden tanks, and in the hands of producers.

On July 1, 1867, there were 1,000,000 barrels Crude Oil.
